

Saratoga Horseworks, a leading manufacturer of custom, American made horse clothing and accessories, and our contract manufacturing division, Custom Sewn Products, is seeking an experienced Sewing Room Supervisor to join their team. Located in Amsterdam, NY Saratoga Horseworks is an easy commute from Saratoga Springs and the Albany Area. Our location offers our staff access to many outdoor sports, cultural activities, and night life. Our compensation package includes competitive salary, health insurance, retirement plan, continuing education reimbursement, and paid vacation and holidays.

**Duties & Responsibilities:**

- Hands on supervision of daily production
- Lead multiple sewing teams to assure quality, productivity and delivery targets are met.
- Identify, train, and mentor a team of lead sewing machine operators dedicated to specific product lines.
- Provide technical expertise and training to resolve process and or quality issues.
- Establish work procedures to satisfy production needs.
- Suggest and drive changes in the work environment and equipment to increase efficiency.
- Examine products to confirm conformance with setup, specifications, and machine setup.
- Analyze and resolve problems as a member of the manufacturing team.
- Contribute to the product development process and oversee sample making.

**Skills:**

- Self-motivated individual who can work independently
- Detailed and Team oriented
- Exceptional sewing skills
- Good Communicator
- Ability to properly setup a wide range of sewing machine types
- Can recognize stitch problems, diagnose and correct them
- Experienced computer user, familiar with Windows based software
- Above average organizational and time management skills
- Must be able to manage multiple tasks, prioritize and adapt easily to changing situations
- Well versed in lean manufacturing methods

**Minimum experience level:**

- High School Graduate
- 5 years in needle trades
- 3 years as direct sewing room supervisor running multiple lines concurrently
- Experience working with industrial fabrics, stretch fabrics, and apparel weight fabrics
- Microsoft office suite

**Preferred additional experience, and skills:**

- Experienced with computer based labor capture in production environment
- Multi lingual English / Spanish
- ERP / MRP Software
