

Question: " On the armor bid you guys currently have out, line items 1 and 2 are sold together by Point Blank. What would be the best way for me to record this on the bid for you? I could simply put \$0.00 for one of those lines."

Answer: " If Items #1 and #2 are sold as a package, and it is not possible to separate the costs of those amounts individually, a notation on the bid placed noting as such would be appropriate. I would suggest not including \$0.00 as a bid price on Items #1 or #2; while it is clear what the intent of the parties are, it is best to avoid situations of confusion that could result from that."
