

POLICE EQUIPMENT SECTION  
POLICE DEPARTMENT – CITY OF NEW YORK

904-# – Belt, Trouser

**TROUSER BELT**

**DESCRIPTION:**

1 ½” wide full grain Leather Lined Trouser Belt

**MATERIAL:**

The belt shall be constructed from a layer of full grain vegetable-tanned cattle hide. The weight of the leather shall be 8 - 10 ounces per square foot.

**CONSTRUCTION:**

The finished width of the belt will be 1 ½” and have five (5) buckle holes spaced 1” apart. The belt shall have two sets of line 24 durable snaps used to fasten a solid brass black round buckle in place. The cap component shall be a textured black polymer. All other components will be black finished solid brass. The solid brass wire formed buckle will weigh no less than 1.6 ounces and will be satin black powder coated. The outside edge of the belt shall be coated with a waterproof finishing ink to give the belt a completely finished appearance.

**BRANDING LABELING**

The NYPD logo must be affixed by stamping into back side of belt. Logo must be within 1 ½ inches from non-buckle end of belt tongue.
