Specification Compliance Questionnaire

EXHIBIT 12
Specification Compliance Questionnaire

The specifications outlined in this document are intended to ensure the Tollway receives garments that are suited for the task(s) they are being procured for. In many cases specifications vary between manufacturers and developing a single specification that provides adequate assurance to the Tollway of item capability, reliability and cost effectiveness may not recognize subtle differences that exist between manufacturers. The Tollway reserves the right to review each bidder's proposal and determine if any specification differences have a significant impact on a specified item(s), capability, reliability or cost effectiveness at time of purchase or for the life of the item(s). The Tollway's determination of contract specification compliance and acceptable specification deviations shall be final.

The bidder is required to complete and return with their bid the attached specification questionnaire and note any deviations from specifications for the line items listed in Group 1, Various Work Uniforms, Outerwear and Accessories, Group 2, Polo Shirts. **Failure to return a completed specification questionnaire at the time of bid will deem the bid non-responsive.**

The Bidder may use of the Pricing Specifications Guideline (Exhibit 13) to assist the Bidder with the completion of Specification Compliance Questionnaire (Exhibit 12).
