Bid Conditions

Furnish Safety Glove Cut-Resistant as specified below to be F.O.B. delivered to the locations listed as and when required on a firm price basis

**FURNISHING OF SAMPLES:** Samples are required and part of the evaluation review process that must be furnished at the expense of the bidder and will become the property of the Pennsylvania Turnpike Commission. Samples must be received no later than the bid opening date of 02/27/2026 by 2:00pm.

Forward samples to:  
PA Turnpike Commission  
Central Administration Building  
700 South Eisenhower Boulevard  
Middletown PA 17057  
Attention: Wayne Burke / RFX: 6100015535  
From: Vendor Name & Contact Information

1.1 Initial Term of Contract: The Contract shall commence on the Effective Date, April 1, 2026 and expire on March 31, 2027.

1.2 Option to Renew: The contract or any part of the contract may be renewed for two (2) additional one (1) year terms by the mutual agreement between the Commission and the Supplier(s). The renewal may be exercised as individual or multiple year terms(s). Renewals shall be negotiated and mutually agreed upon by the Commission's Strategic Sourcing Department and the suppliers. Non-renewed contracts will be competitively re-bid.

1.3 PTC may terminate any resulting contract upon a thirty (30) day written notice.

**Bid Opening:** Time for bid opening is 2:00 PM, local time. All bids must be received via the PA Turnpike Commission Vendor Portal no later than the assigned bid opening time, or they will be considered non-responsive. Electronic Bids will be opened at the bid opening time and date specified above. Official bid results will be made available after evaluation and award have been finalized. Refer to the General Terms and Conditions for information on the availability of bid results.

**Inquiries:** All questions concerning this proposal must be submitted through the Q & A function on the RFX in the Vendor Portal. Telephone and email inquiries will not be answered.

Questions submitted via the Vendor Portal Q & A will be visible to all potential bidders. The bidder who posed the question will not be publicly identified. It is the Bidder's responsibility to review the Q & A section of the RFX and abide by any information provided therein.

All potential bidders will receive an email notification for each question when it is answered. Bidders are encouraged to consolidate questions into a single Q & A entry when possible.

**Bid Response:**

- All bid quotations must be submitted via the PA Turnpike Commission Vendor Portal. In order to protect the integrity of the sealed bid process, do not email your bid response to the buyer.
- The person responsible for submitting the response to the RFX in the Vendor Portal must be a registered contact within the vendor's Company Profile, and responses can only be made by registered contacts who have been assigned a role in Vendor Portal as either "Administrator" or "Logistics". If the person isn't currently registered and/or does not currently have the proper role assigned, the company's Vendor Portal "Administrator" must add the appropriate contacts and/or assign the contact the "Logistics" role. Please allow 5 business days for processing a new contact.
- When submitting your proposal please allow plenty of time to upload documents completing your submission before the deadline. The Commission's Vendor Portal will not allow uploads and submissions past the deadline.

**Product Category / Descr:** 636000 / WORK GLOVES

**Description:**

Safety Glove Cut-Resistant

IMPORTANT: Enter a \$1.00 in this item to submit your bid. Complete the Schedule of Prices (Excel spreadsheet) included and submit with bid response.

Safety Glove Specification

Gloves must meet ANSI/ISEA 105-2024 standards with a minimum cut resistance of A6 and puncture resistance level 4. Impact protection should comply with ANSI/ISEA 138-2019 standards (preferably level 2). Gloves should be flexible in how that protection is integrated (e.g., knuckle guards, reinforced zones, or other design elements). Gloves must be suitable for outdoor field work with options for performance in winter and summer conditions. Gloves must be able to handle exposure to moisture, sweat, and moderate abrasion. Gloves should offer secure fit, breathability, and dexterity for moderately fine manipulation (e.g., driver's glove style). Grip-enhancing features, such as external textured surfaces, are preferred to support handling of equipment like traffic cones.
