

Texas A&M Corps of Cadets Specifications
Women's Gabardine Slacks

ITEM DESCRIPTION:

Women's slacks constructed from Raeford #521-193 gabardine fabric, featuring a high-back, slim-fit design in accordance with MIL-S-83482A (USAF) standards.

STYLE, FABRIC, AND CONSTRUCTION DETAILS:

These slacks shall be similar in style and design to the current U.S. Air Force women's poly/wool tropical slacks, except as modified below:

1. Fabric Requirements:

Constructed from Raeford #521-193 gabardine consisting of 55% Dacron polyester and 45% wool. Fabric weight shall be 11.5 to 12 ounces, 60-inch width, 2-ply.

2. Pocketing and Waistband Interior:

Pocket lining and interior waistband lining shall be made from a poly-cotton blend. The waistband shall include a SNUGTEX (or equivalent) triple-elasticized insert.

3. Waistband Design:

Features a Texas A&M-specific high-back, set-on waistband at the rear center (refer to accompanying sketches for design details).

4. Construction Features:

Slacks shall include a "Browne outlet" as specified, along with a one-inch inseam outlet in the back panel extending from the crotch through the full length of the inseam.

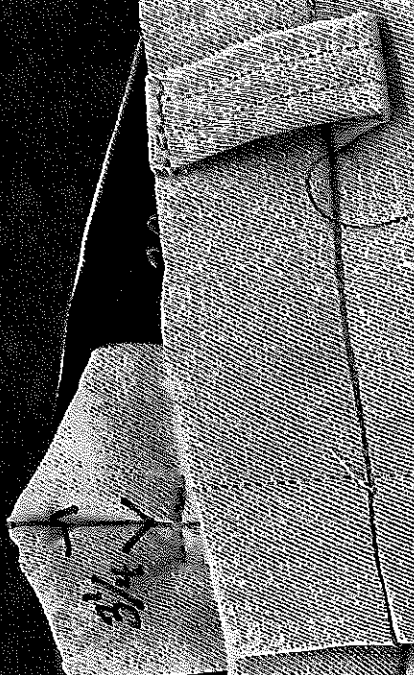

The slacks pattern is a Fashion Fit style.

Manufacturer and permanent size markings label required on all items!
